-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

Claims 2,10,13 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 2 and 10, the recitation that the spacer panels are above the portal is ambiguous. As disclosed, the spacers which effect the adjustment of the rise are below the portal.

Regarding claims 13 and 14, the phrase "is adjusted" suggests a method of adjusting in an otherwise article claim. The term "adjustable" is assumed to have been intended.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3-5,7-9,11,12,13,15 and 17-21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Jansons et al.

See top piece 14, bottom piece 20, flaps 4 which make up the portal, and spacers, either 15 alone or the panel which includes each segment 15. The limitation "protrusions for nesting" reads on the spacer panel being engaged by elements 23 and inserted in bottom piece 20.

Allowable Subject Matter

Claims 6 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments have been fully considered but they are not persuasive. Addressing the remarks aimed at Jansons et al, the term "rise" as discerned from the specification is the distance from the bottom of the door panel to the pet door. The distance of the "portal assembly" from the bottom of the "door frame panel" is adjustable as disclosed clearly in Jansons et al.
